

Winchester B. Nuñez

09635131357, winchesterbnunez@gmail.com

Laguna State Polytechnic University, BS Computer Science

PROFESSIONAL SUMMARY

A Computer Science graduate skilled in both front-end design and Python-driven backend development. Experienced in building scalable web systems, integrating automated functionalities, and translating complex processes into streamlined user experiences using HTML, CSS, JavaScript, and Python. Ready to leverage a versatile technical skill set to deliver practical solutions and add immediate value to the workplace.

EDUCATION

Laguna State Polytechnic University — BS Computer Science, 2022-2026

- Major in Intelligent Systems

Bayog Senior High School — Technical-Vocational-Livelihood (TVL), 2020-2022

WORK EXPERIENCE

Laguna Water District — Front Web Developer, Intern, Work, Data Encoder, Transcriber, 2026

LWD Official Website Development

- Designed and developed the modern, responsive front-end architecture for the official Laguna Water District website using HTML, CSS, and JavaScript.
- Collaborated with a team to integrate dynamic user-facing features, including an automated customer service chatbot and streamlined informational portals for utility services and payment routing.

- Ensured cross-browser compatibility and mobile responsiveness, prioritizing a clean, accessible user interface for district consumers.

Sentiment Analysis System

- Built the front-end interface for a team-driven sentiment analysis web application, focusing on intuitive design and clear data presentation.
- Bridged front-end components with backend functionalities, facilitating smooth interactions between the user interface and the underlying machine learning algorithms.

Data Encoding, Document Digitization, & Transcription

- Digitized physical records by scanning hard-copy operational and utility documents and systematically cataloging them to create a centralized digital database.
- Managed data entry and organization using Microsoft Lists, ensuring accurate tracking, sorting, and seamless information retrieval for the team.
- Maintained high data integrity during the transition from physical archives to digital formats, improving overall workflow efficiency and document accessibility.
- Transcribe and convert the spoken words in audio recording meetings into written text.

CERTIFICATION & AWARD

Laguna Water District — Certificate of Completion, 500-hour On-the-Job Training, 2026

- Awarded for the successful completion of the internship program. Recognized for contributions as a Front-End Developer and Data Encoder, including designing the LWD official website, building the UI for a sentiment analysis system, and modernizing physical document storage through digital archiving.

LSPU-LBC, College of Computer Studies Seminar — Certificate of Appreciation - Role of Technology in Sustainable Development, 2025

LSPU-LBC, College of Computer Studies Research Congress — Certificate of Appreciation, 2025

ACADEMIC PROJECT/THESIS

Laguna State Polytechnic University, Thesis — Spatial Analysis and Multi-Source Data Fusion for Dengue Outbreak Forecasting Using an Ensemble of Random Forest and XGBOOST With Heatmap Visualization, 2025

Copyright Repository: A Web-Based System for Reviewing and Managing Departmental Copyright Certificates.

PROGRAMMING LANGUAGE

HTML | CSS | JavaScript | Python

TECHNICAL SKILLS

Web Development | Machine Learning | Data Encoding | Transcribing

SOFT SKILLS

Positive Attitude and Professionalism | Time Management and Task Prioritization | Strong Work Ethic and Reliability
